

# ELECTRIC CONTROLS VARIABLE SPEED

## RVV series

Variable speed RVV electrical panels regulate the speed of the pool filtration pumps. Reducing the speed of the pump and the flow by 50% reduces the energy consumed by more than 85%.

Electrical panels can be able to connect in any swimming pool. Control and protection pump filtration, cleaning pump, chlorinator, controls, etc.

These equipment can be connected to any type of pool pump. They allow to select the programmed speeds automatically from a time switch. Mounted on IP65 frames for installation in wet areas.
